ORGANIZATION OF CITY GOVERNMENT.

Tuesday, January 4, 1921.

The members of the city government for the municipal year of 1921, having met for organization, agreeably to the provisions of the city charter, the convention was called to order by His Honor, Mayor Watson, at ten o'clock in the forenoon.

Hon. William H. Watson announced that Orville E. Cain, having been officially notified of his election to the office of mayor for the current municipal term, was present for the purpose of taking the oath of office. The oath of office by law prescribed was administered to the mayor-elect, Orville E. Cain, by Hon. William H. Watson, who then introduced him to the Aldermen and Councilmen and to the citizens who were present.

After roll-call by the clerk, His Honor Mayor Cain administered the oath of office to the following named members of the boards of aldermen and councilmen, to wit:

BOARD OF ALDERMEN.

Ward 1.—Waldo W. Buckminster.

Ward 2.—Philip G. Howe.

Ward 3.—Charles E. Adams.

Ward 4.—Ralph E. Hayward.

Ward 5.—Clarence E. Stickney.

BOARD OF COMMON COUNCIL.

Ward 1.—Leonard B. Dewyea.
Richard C. Carrick.
Mabel S. Cole.

Ward 2.—Richard J. Wellman.
Grace A. Richardson.
Allison N. Piper.

Ward 3.—John C. Faulkner, Jr.
Annie L. Holbrook.
Franklin H. Ingalls.

Ward 4.—Sidney A. Nims.
Horace W. Sawyer.
Katherine H. Faulkner.

Ward 5.—George F. T. Trask.
Walter A. Sawyer.
Lula F. Lesure.

Prayer was then offered by Rev. H. Sumner Mitchell.

Prayer said by Rev. H. Sumner Mitchell at the inauguration of Mayor Orville E. Cain, January 4, 1921.

Hushed into stillness by the consciousness of thine immediate presence and sensible of our own manifold blessings we would return thanks unto Thee, Our Father.

By the universal suffrage of the people, these thy servants, have been called to this office of responsibility and we pray that Thou wilt grant unto them wisdom and power to faithfully discharge the duties and responsibilities of their high commission. Without a knowledge of Thee men falter and fail, nations crumble into ruin; we pray, therefore that

religion, a knowledge of God, may be the foundation upon which this government rests.

We pray for thy blessing but we would not be unmindful of our own responsibilities in the faithful discharge of this stewardship. May our work be done therefore with an eye single to the truth and with a high sense of justice as between man and man. Amen.

After the prayer Mayor Cain delivered his inaugural address. Frank H. Whitcomb was elected city clerk and Charles S. Wright city messenger and the councils then adjourned until 7.30 o'clock.

At 7.30 o'clock in the evening the common council organized by the choice of Horace W. Sawyer as president and Harry E. Gale clerk.

THE MAYOR'S ADDRESS.

Ladies and Gentlemen of the Councils and Fellow Citizens:

We are met to enter upon those duties with which the suffrages of the citizens of Keene have invested us. These duties must not sit too lightly upon us. The fact of our elections is an evidence of that confidence in which we are held. We must not be untrue to that trust.

It may be observed as a general proposition, that the duties of the Mayor and those of the City Councils are several. One of the most important duties imposed upon the Councils is in the selection of the officers who shall fill the various positions during the coming year. We must have the loyal and undivided support of every one if this administration is to measure up to what it should. In your selections, be sure that they are of a standard which will produce efficiency. Without intending in any way to reflect on any incumbent, it has seemed to me that, in some respects, the Councils have treated these selections as mere matters of form and have not seriously inquired as to whether the public service might be improved by change. In making these comments, it is with the purpose in mind of having you weigh well your action in this regard, for you are responsible for what of efficiency or inefficiency results. The Mayor has no part in these elections and must work with those whom you choose.

Again, while entering upon their duties with some enthusiasm, members of committees have been prone, after a short period, not to give that attention to the work of the committees which their nature demands. Whether it is due to the feeling that the chairman of the committees shall prevail, whether it is because of the aggressive personality of some member of the committee or whether it is owing to inexperience or timidity, it is a matter of common knowledge that committee members neglect these important duties and thereby the public service suffers. No one should accept public office unless with the intention of making such sacrifices of time and labor as the nature of the office requires.

In looking over the designations of committees and their work, it is clear that many of these committees, because their main functions have been delegated to other bodies, have become more or less perfunctory. For instance, the schools are under the jurisdiction of the Union School District, the Police of the Police Commission and the Library of the Library Trustees. These committees of the City Councils have few and unimportant duties to perform. It seems to me that a revision of the Rules of Order, creating other and more necessary committees should be made as soon as possible, in order that each member of the Councils may be upon a committee of some importance such as, for illustration, Public Health, or Public Welfare. I therefore recommend such action for your consideration.

With these general premises, I come now to consideration of those matters which will require particular attention by you.

Finance.

First and foremost, of course, is the matter of finance. The period of readjustment is now upon us. The artificial prosperity attending every great war is ended. The burden of taxation, to meet our state and national obligations, must be felt for decades to come. No decrease of our contributions in those directions can be expected for years. Nevertheless, public improvement can not be stopped. If our beautiful little city is to maintain its proper place, provision must be made for a proper constructive plan of public improvement.

Highways.

In this connection, no one thing is of such general and consuming interest as our public highways. Let us wipe the slate clean in this respect and lay out a comprehensive scheme, under expert advice, and adhere conscientiously to it.

The demands of traffic have so increased that methods of construction which answered the needs of comparatively light horse-drawn vehicles will no longer suffice. There are two fundamentals of highway construction which must be borne in mind, proper drainage and suitable foundation. Given these and the question of surfacing reduces itself to the wealth of the community and the nature and extent of the use. In a small state such as ours, it cannot be expected that our outlying roads will be constructed of such expensive material as is the case in the more wealthy and populous states. But they should be so constructed and maintained that the expense of maintenance is not excessive.

Two things should be before us. The approaches to Keene have long been a subject of unfavorable comment by motor-

ists, who now constitute such a large proportion of users of the public highways. On the other hand the more populous portions of the city should not be neglected. Sidewalks too must be planned and built. Construction under intelligent planning and maintenance after construction must be a part of any scheme adopted.

Some years ago it became apparent that the wooden bridges were rapidly reaching a condition where they must be replaced by more substantial ones. The policy of replacing them with concrete was adopted and pursued for some time. This policy continued through 1916, but was soon after this suspended. It should now be resumed and the plan completed.

Court street should be resurfaced. If my information is correct, most of this street has a good foundation and is fairly well drained. This surfacing was neglected during the war because of the difficulty of obtaining materials. The outgoing administration had proposed to pave a portion of this with cement, but owing to the fact that the road will not be subjected to extremely heavy traffic, it seems to me that an asphalt mat may be sufficient and enable more extensive construction for the same expenditure. However, I am wedded to no particular plan.

Any plan of development should contemplate paving Main street as far south as the Eagle and Ellis Hotels with brick. By way of suggestion, that portion from the Square to Church street could be built this year without too heavy a drain upon our resources. As soon as the layer of asphalt coating on the remaining portion is sufficiently worn, the plan should contemplate replacing that portion immediately with

brick. The matter of maintenance would thereby be reduced to a minimum.

There are many other details in this connection into which it is not necessary to go. I recommend that the highway committee of the City Councils, with such additions as may seem wise, be instructed to at once make, in conjunction with the Superintendent of Streets, a comprehensive survey of the subject of our highways, that the committee be empowered to employ an expert engineer, if necessary, and directed to report as soon as may be to the councils a plan of improvement, in order that the benefit of their investigation may be utilized during the year. I am of the opinion that the advice of experts employed and connected with various organizations interested in highway improvement can be obtained without any great expense.

If the Keene Electric railway is to continue its use of the highways, it should be required to keep its rolling stock in such condition as to do no injury to our brick and other paving and to contribute its fair proportion of the upkeep of that portion of the highways used by it. While sympathizing with those who are financially interested in it, taxes should not be imposed upon our citizens generally to enable it to exercise its franchise.

Agencies of travel now using our highways were undreamed of when the roads were laid out and built. The motor truck, with its great weight and heavy load, places too great a burden upon our country roads. While they have come to stay, reasonable and proper restrictions as to the use of the highways by motor vehicles should be imposed and means devised for their regulation. While this is beyond the sphere

of municipal regulation, I recommend that a committee be appointed to cooperate with our delegation in the legislature and the various state agencies to secure suitable legislation. The cooperation of other municipalities should be secured to this end.

Athletic Field.

The health and happiness of its people should be the first consideration of every community and the first care of those in authority. Social and economic unrest, disloyalty and sedition are never propagated in a community which looks after these essentials. The grown-up needs his play period as well as the young. Avenues for venting surplus energy in a healthful manner should be provided. If this administration can be remembered for any one thing, I trust it will be for contributing to make of Keene the "Home of Happy People." I therefore recommend that a special committee of the City Councils be appointed to investigate on the question of the acquisition and equipment of a proper play ground, or athletic field, with, if possible, bathing and other facilities, and report to the City Councils with their recommendations.

Public Health.

There are at present various agencies having to do with this vital subject which should be coordinated. The tendency has been toward decentralization, producing greater expense and resulting in duplication of effort.

Our city hospital is in a precarious condition. Its continued existence is so essential to the community that no effort should be spared to bring about its rehabilitation. A method should be devised whereby the city can contribute to a rea-

sonable extent to its support, without assuming responsibility for its management, in consideration of the establishment of a liberal method of caring for those who are ill, and doing away with the necessity for the hospital authorities to inquire as to the financial responsibility of those to be treated.

Among the segregated Public Health agencies now in existence are the board of health, food inspector and the clinic for tuberculars recently established. These are so closely related to the legitimate work of the hospital that it should be possible to combine them under one head and thereby produce greater efficiency. I am of the opinion that it will not be long until it will be advisable to have a paid agent of the board of health and this could likewise be cared for. I recommend that a committee be appointed to study this subject, in conjunction with the board of health, and the hospital trustees, and be instructed to report as soon as possible a plan whereby these services may be improved.

My attention has been directed to the fact that the ordinance, relative to the inspection of milk cows owned or controlled by persons delivering milk in the city is being disregarded. So much effort is now being expended to control tuberculosis that I feel it my duty to direct your attention to the necessity of a strict enforcement of this ordinance. If the ordinance is not a reasonable one, as I think it is, it should be repealed; otherwise it should be enforced.

Public Urinals.

There are now in Keene no public urinals or comfort stations. The Boston & Maine Railroad company maintains at the railroad station the only place of the kind in the city.

The maintenance and control of these is largely a matter of public concern. It is most essential to the health of the community and to the accommodation of our citizens and of visitors to the city that proper provision and regulation be made in this respect. It is possible that some arrangement can be made with the Railroad company for cooperation in providing and maintaining facilities. There is, however, ample room at City Hall for this purpose where such station can be under constant observation of the proper authorities. I recommend that a committee be appointed to investigate the matter, acting with the Board of Health, and report its conclusions.

Water Department

The growth of the city, if it continues normally, will eventually demand some additional facilities. Again, it is apparent that steps should be taken to provide means for maintaining sufficient volume and pressure in our mains for fire purposes. I would recommend that the committee on Water Works and the committee on Fire Department, with the heads of the respective departments, make a study of this subject and report to the City Councils. I am quite certain that the assistance of the National Board of Fire Underwriters and other experts can be secured without particular expense.

From a portion of the water shed, the timber has recently been sold. The proper conservation of the source of water supply requires that this be reforested. I recommend that this be done.

Police.

The force is faithful and efficient. The advent of prohibi-

tion has necessarily reduced its work and the occasion for frequent patrols particularly in the day time. A comparison with other places is difficult because of the law abiding character of our citizens. As quarters are provided for the Police, I believe that a substantial reduction can be made in the appropriation without impairing the efficiency of the department. An expenditure of $13,000 annually for this purpose seems to be excessive. I recommend that the appropriation be fixed at $10,000, in order that the Police Commission may plan its expenditures accordingly. In making this recommendation, I have in mind that there must be retrenchment and economy in all departments.

Fire Department.

The department has had few general alarms during the past year but many still alarms, which have demonstrated the advantages of the chemical truck and the efficiency of the men. One criticism, without reflecting in any way upon the department, may be made. The chemical truck is almost habitually driven at an unreasonable speed, particularly in returning to the station. To any one at all familiar with motor vehicles, it is only too apparent that such practice can only result in reducing the life of the truck without accomplishing any beneficial result. I recommend this subject to the consideration of the committee on Fire Department and of the Engineers for appropriate action and regulation.

Supervision.

The city employs officers and agents to do the work laid out by the Councils. Almost habitually, the Councils have

felt their work ended when the elections and appropriations are made. A proper regard for our obligations suggests a follow-up by each member of the government to insure that the money is wisely expended and that value received is delivered.

I would also recommend that the delegations from the various wards get together and make a study of the public needs in their wards, in order to be able to give intelligent consideration to all matters presented, and also to make recommendations which they believe will inure to the public welfare.

Conclusion.

The other activities of the city will be called to your attention as occasion demands. Before making the appropriations, make a full study of the various utilities affected in order that you may act intelligently. Bear in mind that in this time of readjustment we can not make expenditures on a war basis, nor do I believe that it will be necessary. I am quite certain that none of us have any "axes to grind" or ambitions to serve and that we can therefore act unselfishly in the public interest.

Above all things, be prompt and faithful in your attendance at meetings of the Councils and of committees. Do not steal the time of the other members by being dilatory or absent.

No man or set of men possesses sufficient of wisdom to be able to reject assistance from others. I hope, therefore, the citizens of Keene will feel free to offer advice, suggestions and criticisms, knowing full well it will be received in the spirit in which it is given.

Passed February 17, 1921.

AN ORDINANCE.

Be it ordained by the City Councils of the City of Keene as follows:

Section I. Subdivision II of Section 10 of Chapter V of the City Ordinances is hereby amended by striking out the whole thereof and inserting instead thereof, the following:

"II. The Health Officer appointed by the Board of Health shall inspect all plumbing work for which permits are granted, in process of construction, alteration or repair, at any and all times and perform such other duties as are or may hereafter be prescribed and required by law or ordinance relative to the inspection of all plumbing work.

Section 2. Section 22 of Chapter XXXVII of the revised City Ordinances by striking out the whole thereof and inserting instead thereof the following:

Section 22. The Health Officer appointed by the Board of Health shall make regular inspections under the direction of the Board of Health, of all places where food and food substances are manufactured, sold or kept for sale and where milk is produced, kept or sold for the purpose of facilitating the enforcement of the provisions of this ordinance and the provisions of the Chapter 48 of the laws of 1907 and other laws and ordinances relating to the purity of food or food substances or to the production, care or sale of the same and wherever the word "inspector" is used in this ordinance it shall be taken to refer to the Health Officer aforesaid.

Section 3. The Board of Health is hereby authorized and

empowered to employ a health officer for the City of Keene, who shall work as the agent and under the direction of the Board of Health, and who shall devote his full time to the duties hereinafter laid down and who shall receive, therefor, the annual salary of ($2,000.00) two thousand dollars, payable in equal monthly installments.

Section 4. That Section 1 of Chapter XII of the revised City Ordinances be amended by the addition of the words "who shall serve without pay," and Section 2 of the same Chapter be revised by the insertion of the words "through their agent," so that said Section 1 and Section 2 shall read after amendment as follows:

Section 1. The board of Mayor and Aldermen shall appoint a board of health, which shall consist of three persons, selected with reference to their fitness for the office, who shall serve without pay, and they shall be so appointed that the term of office of one member shall expire each year, and the members thereof appointed shall hold office three years and until their successors are appointed and qualified. In case a vacancy exists in the board or occurs by resignation or otherwise, the board of Mayor and Aldermen shall appoint a person to fill the unexpired term, and said board of health shall each of them be invested with all the powers granted by the laws of the state, to execute its laws and the ordinances of the city, made for the preservation of the health of said city.

Section 2. It shall be the duty of the board of health, through their agent, and each of them within the city, to inquire into all nuisances and other causes of danger to the public health, and in this respect to enforce the laws of the state and the ordinances of the city that the health of the people may be carefully protected, and to see that all laws and ordinances relating to the interment and disinterment of the dead are faithfully executed, and said Health Officer, so far as is consistent with existing statutes, is hereby vested with the

duty and authority of enforcing all laws relating to public health and of enforcing all ordinances and regulations relative thereto.

A JOINT RESOLUTION relating to an investigation.

Resolved by the City Councils of the City of Keene, as follows:

That a committee be appointed by His Honor the Mayor and the President of the Council to investigate the matter of an increased water supply for the city for fire protection.

Passed September 15, 1921.

Keene, N. H., September 16, 1921.

To the City Councils of Keene, N. H.:

A joint resolution adopted September 15th provided for an investigation of the water supply by a committee appointed by the Mayor and President of the Common Council.

This has not been done for the reason that no appropriation is provided for the work of any committee appointed, and the committee would be powerless to accomplish any good. The apparent purpose of the resolution is to determine what methods shall be employed for furnishing better fire protection. The merits and demerits of this have been discussed to a considerable extent. Few facts could be developed by the committee which are not known. What we need is to employ a hydraulic engineer, whose report will furnish the basis of further action by the City Councils. What each of us desires is to furnish this protection, and we are not particularly concerned, so far as our individual opinions are concerned, with the form which may be finally adopted.

I recommend that instead of this resolution, one be adopted appropriating a sufficient sum and authorizing the employment of a hydraulic engineer of standing to investigate the situation and report his recommendations.

O. E. CAIN,
Mayor.

A JOINT RESOLUTION relating to the employment of a hydraulic engineer.

Resolved by the City Councils of the city of Keene, as follows:

That a sum not exceeding five hundred dollars be and hereby is appropriated for the employment of a hydraulic engineer and investigation into the matter of better protection from fire under the direction of a suitable committee.

Passed October 6, 1921.

Keene, N. H., October 6, 1921.

To the City of Keene:

The late Austin A. Ellis in his last will provided that the sum of One Hundred ($100.00) Dollars, should be given to said City in trust and the income thereof to be used to care for his burial lot.

I am now ready to pay over that sum to the City if they will notify me that they are ready to receive it.

Respectfull yours,

MYRTLE E. ROBERTSON,
Executrix.

A JOINT RESOLUTION relating to the Austin A. Ellis Cemetery Fund.

Resolved by the City Councils of the city of Keene, as follows:

That the City of Keene, by its councils, hereby accepts the Austin A. Ellis Cemetery Fund of one hundred dollars, in trust, however, the income only to be used in the care of his lot in Woodland Cemetery. The City Clerk shall receipt for said fund, which shall be invested by the Trustees of Trust Funds according to law.

Passed October 6, 1921.

Keene, N. H., September 21, 1921.

To the City Councils:

The undersigned desires to give to the city of Keene the sum of one thousand dollars, in trust, however, the income only to be used in the care of Lots 14-16, Sect. 7, in Woodland cemetery and for the care of Lot Nos. 309-194 and 37 in the North

East Division of said cemetery. The fund shall be called the Herbert Pond Cemetery Fund and preference shall be had to the care of the said Lots No. 14-16 should the income from said fund become inadequate for said purposes.

MERTIE E. POND.

A JOINT RESOLUTION relating to the Herbert Pond Cemetery fund.

Resolved by the City Councils of the city of Keene, as follows:

That the city of Keene hereby accepts the Herbert Pond Cemetery Fund of one thousand dollars, in trust, however, the income only to be used in the care of Lots 14-16, Sect. 7 in Woodland Cemetery and for the care of Lot Nos 309-194 and 37 in the North East Division of said cemetery and preference shall be had to the care of said Lots 14-16 should the income from said fund become inadequate for said purposes.

The city clerk shall receipt for said fund, which shall be invested by the trustees of trust funds according to law.

Passed October 6, 1921.

Keene, N. H., September 7, 1921.

Mayor O. E. Cain,

My dear Mayor:

Owing to the condition of the South Side Road in the city of Keene early in the season, it was found necessary to scarify and reshape this section of road and treat it with tar. This was outside of the estimate that was made for trunk line maintenance early in the season. On account of this, we will overrun our trunk line maintenance account if we continue the patrol work to the end of the season, between $2500.00 and

$3000.00. The state is prepared to pay one half of this expense provided the city will do likewise.

Will you kindly advise me if the city will set aside $1500.00 for this work so that we may set it up on our books?

Yours truly,

F. E. EVERETT,
Commissioner.

A JOINT RESOLUTION relating to Trunk Line Maintenance.

Resolved by the City Councils of the city of Keene, as follows:

That in addition to the sums heretofore appropriated the further sum of fifteen hundred dollars be and hereby is appropriated for the maintenance of trunk lines, in connection with a like sum to be set aside by the State of New Hampshire for the same purposes.

Passed October 6, 1921.

A JOINT RESOLUTION relating to City Reports.

Resolved by the City Councils of the city of Keene, as follows:

That the committee on printing be and it is hereby authorized and instructed to cause a sufficient number of annual reports to be printed, which shall contain a likeness of the mayor of Keene, the proceedings of the inauguration of the city government in January last, with the joint resolutions and ordinances that have been passed during the current term, the reports of the finance committee, trustees of trust funds, city officers who are required to report, and such other matter as may hereafter be ordered by the board of mayor and aldermen; and

that they shall be issued in such form and number as said committee may deem expedient; and that a sufficient number be bound in cloth for the use of city officers, and in leather for exchange.

Passed October 20, 1921.

A JOINT RESOLUTION relating to the distribution of Interest on Trust Funds.

Resolved by the City Councils of the city of Keene, as follows:

That the income on the Minister fund of $149.36, be divided among the resident pastors of churches settled over parishes in Keene; that the income of the Hall Charitable fund, $60.00, be divided among worthy women of Keene; and the income from the Simmons & Eastburn and Morse funds, $79.98, be divided among aged and infirm persons of Keene, under the direction of the board of mayor and aldermen, in accordance with the terms of the several bequests.

Passed October 20, 1921.

Keene, October 12, 1921.

As administrator of the Estate of Clinton A. Hyland, I desire to pay to the City of Keene, the sum of two hundred (200) dollars; one hundred dollars to be deposited in the Keene Savings Bank, the income to be expended annually in caring for the Reuben Hyland burial lot 18 Sect. 2, in Woodland cemetery, one hundred dollars to be deposited in the Cheshire County Savings bank, the income to be expended annually in

caring for the Jesse B. Hyland burial lot No. 213, in Greenlawn Cemetery.

ELGIN A. JONES.

A JOINT RESOLUTION relating to the Clinton A. Hyland Cemetery Fund.

Resolved by the City Councils of the city of Keene, as follows:

That the City of Keene, by its councils, hereby accepts the Clinton A. Hyland Cemetery Fund of two hundred dollars, in trust, however, the income only to be used in the care of the Reuben Hyland lot (No. 18 in Sect. 2) in Woodland Cemetery; and for the care of the Jesse B. Hyland lot in Greenlawn Cemetery, numbered 213.

One hundred dollars of said fund shall be invested in the Keene Savings Bank and one hundred dollars in the Cheshire County Savings Bank, under the direction of the Trustees of Trust funds, in accordance with the terms of the bequest.

ITEMS OF INTEREST.

The Keene Water Works were established and have been extended from time to time by authority of a charter from the legislature of New Hampshire, granted July 3, 1861, and amendments thereto dated June 24, 1868.

The first contract was made with the Patent Water and Gas Pipe Co., of New Jersey, Sept. 3, 1868.

Water was let into the system November, 1869.

1872.

Beech Hill reservoir was built and connected with the system.

1882.

The Waring system of sewers was adopted and turned over to the city in 1883.

1886.

The Roxbury supply was brought into the city via Beech Hill.

1890.

The first meters were installed.

1891.

Ten and one-half miles of cement lined pipe were replaced with cast iron. There remains in service 7,047 feet in Court St., 400 in Roxbury St., and 186 in West St.

1902.

Additional water from Roxbury was brought into the city via South Keene.

1908.

The Board of Water Commissioners was abolished by the city councils.

1910.

The dam at Echo Lake was rebuilt, raising the water in the lake six feet.

1914.

The meter system was adopted and all services ordered metered.

1917.

Guards maintained at Echo Lake for three months.

DRAINS.

I respectfully recommend:

That the 24 inch pipe in Baker street be extended to Congress street, and then in Congress St., to a culvert, then with smaller pipe to Tiffin street.

That a pipe of suitable size be laid in Carpenter street to Kingsbury street, then to Beaver Brook.

That a drain be laid in Beaver street, from Beaver brook to east of North Lincoln street.

That a large pipe be laid in Appian Way from Madison street to Main street, then in Main street south to Baker and Appleton streets.

That a drain be laid in Marlboro street from Beaver brook east to Martin street.

Respectfully submitted,

PAUL F. BABBIDGE,
Superintendent.

City Clerk

Dec. 1, 1921.

REPORT OF CITY MESSENGER.

To His Honor the Mayor and the City Councils:

I submit my fourth annual report as City Messenger and Janitor of City Hall building for the year ending December 1, 1921. Receipts for the rental of City Hall during the year amount to the sum of $3,166.50, which has been deposited with the City Treasurer and the vouchers returned to the City Clerk.

Statement of each month's receipts, as follows:

December, 1920,	$300 00	
January, 1921,	422 00	
February,	249 00	
March,	385 50	
April,	372 00	
May,	165 00	
June,	117 00	
July,	25 00	
August,	25 00	
September,	124 00	
October,	265 00	
November,	717 00	
		$3,166 50

The receipts for the rental of City Hall show a slight gain over the receipts of the year 1920.

The hall has been used on several occasions of public interest free of charge.

The constant use of the hall requires a great deal of work, which has been done with as little expense as possible.

The hall and the stage scenery need renovating badly as nothing has been done for the last three years and they are not a credit to our city in comparison with its other public buildings and equipment. I hope that the Mayor and City Councils will appropriate money for these purposes the coming year.

I wish to thank Mayor Cain and the City Committees for advice and courtesies extended to me this year.

Respectfully submitted,

CHARLES S. WRIGHT,

City Messenger.

Keene, Dec. 1, 1921.

REPORT OF PARK COMMISSIONER.

To His Honor, the Mayor, and Gentlemen of the City Councils:

Work done in the parks this year has been of the usual sort. In Wheelock Park, after the general clearing up in the spring, very little more was required during the season. Several partially decayed pines were cut and hauled to the mill last winter, and the baseball ground considerably enlarged by cutting out sections of small pines, greatly improving the field. Large use was made of the Park by family and association gatherings, and as a playground for the children.

More has been done in Robin Hood Forest this year than before. Cutting out underbrush along the drive from Roxbury Street through to North Lincoln Street, including the triangle west of the tower, and the entire tract between Spring Lane and the reservoir, was only a part of the work.

It also was cleared around Sunset Rock and brush disposed of.

All chestnut trees in the parks were destroyed by the blight and have been cut out. Further repairs are needed on the roadways in Robin Hood Forest, and should be attended to another year.

Respectfully submitted,

GEORGE A. LITCHFIELD,
Park Commissioner.

REPORT OF THE BOARD OF HEALTH.

To His Honor, the Mayor and City Councils.

Gentlemen:

We hereby submit the report of the Board of Health, together with the report of the Health Officer for the year ending December 1, 1921.

March 3rd a change was made in the City Ordinances whereby the Board of Health was empowered to employ a full time health officer. After considerable correspondence, Mr. A. E. Burke was selected, and assumed his duties March 10th. The Board of Health to serve without pay. The duties of the Food Inspector and Inspector of Plumbing were included in the duties of the Health Officer. For a detailed account of the work performed during the year see the report of the Health Officer.

January 31 the office in the Elliot block was given up and moved to City Hall, where room was found for the District Nurse, the Tuberculosis Nurse and Health department.

COMMUNICABLE DISEASES.

Communicable diseases are caused by definite and specific organisms, or germs, transmitted from person to person in various ways. Disease germs always comes from a previous case of disease, and are never derived from decaying material, as was formerly believed. Neither can disease be caused by the emanations from putrefying material.

MANNER OF SPREAD.

Communicable diseases are spread, almost entirely by more or less direct contact between well persons, and persons harboring the germs of disease. This does not necessarily mean direct touching between persons. The germs of communicable diseases are given off from the body in the secretions of the upper respiratory passages, as in diphtheria and scarlet fever, from the sputum coughed up from the lungs, as is pulmonary tuberculosis, in the discharges from the bowels, as in typhoid fever, or in the discharges from sores, as in venereal diseases. Malaria, and infant paralysis may be spread through the medium of blood sucking insects. Infectious secretions are most frequently passed from person to person by the fingers.

Frequently the spray or droplets thrown off by an infected person in coughing, sneezing, or talking, is taken into the respiratory tract of a well person. Infectious material may readily find its way into milk and other foods handled by infected persons. The germs of typhoid fever and other intestinal diseases may find their way into drinking water supplies exposed to contamination by sewage, or may be deposited on food by flies which had access to excreta from infected persons.

When the germs of a communicable disease are taken up

by a healthy person, he may develop the disease in mild or severe form, or he may carry the germs, without developing the disease.

Although, in most cases where the infection is severe enough to cause noticeable symptoms, the disease is recognized and isolated, there are considerable numbers of mild cases and carriers which go unrecognized, and are potential sources of infection.

CONTROL.

The first essential in the control of communicable diseases is the prompt reporting of all cases. Isolation of known cases will not stop the spread of disease while carriers and mild cases remain at large. When a case has been reported and isolated, efforts to prevent the spread of the infection should be concentrated at the bedside of the patient. All secretion and discharges from the patient should be promptly disinfected. All dishes and bed linen should be boiled.

It should be borne in mind that the germs of most communicable diseases cannot, under ordinary conditions survive long outside the human body, and that the chief danger is from fresh discharges. Efforts should, therefore, be concentrated on the disinfection of such discharges, and of articles soiled with them, rather than the disinfection of rooms, and articles remotely connected with the patient. In this connection, it may be stated that, in the opinion of most modern health authorities, the practice of terminal disinfection, that is, the disinfection of rooms, furniture, clothing, etc., after the termination of the disease, is of little value after most diseases. Experience has shown that the omission of terminal fumigation has not resulted in increased spread of disease.

DAIRIES.

The first essential of a satisfactory milk supply is that the milk be free from the germs of any dangerous communicable diseases. Such germs may be derived either from the cow from which the milk is drawn or from persons handling the milk.

Milk may be guarded against contamination by disease germs of human origin by preventing persons suffering from communicable diseases from coming in contact with milk supplies or utensils used in handling milk. Protection against disease germs of animal origin may be secured only by insuring that all cows, the milk from which is to be used for human consumption, are free from disease.

The principal disease of animal origin, the germs of which may be borne by milk, is the tuberculosis of cattle, or bovine tuberculosis. It is now believed that about 7 per cent of the tuberculosis in man is of bovine origin. About one quarter to one half of all cases of tuberculosis in children under 5 years of age is associated with the bovine type. It has been estimated that about 7 per cent of the infants and young children under five years of age dying from tuberculosis do so because of infection derived from milk or milk products.

In order to insure that milk is safe for human consumption, if it is to be consumed raw, is to make certain that all cows supplying milk are free from tuberculosis. This can be accomplished only by means of the tuberculin test.

Besides being free from the germs of specific diseases, milk should not contain an excessive number of bacteria. There are many forms of bacteria, which, in small or moderate numbers, are not capable of producing disease, but which, in large numbers, such as might be found in dirty milk are capable of causing gastre-intestinal troubles, particularly in infants. These bacteria are derived from such sources as the

body of the cow, the hands of the milker, the atmosphere of a dusty barn, and the utensils used in handling the milk. The number of bacteria in milk depends on the amount of care with which the milk is handled, and on whether the milk is promptly cooled and kept cool. If milk is handled properly, the number of bacteria will be small. Carelessly handled milk is apt to contain very large numbers of bacteria.

Milk, to be satisfactory, must conform to certain standards for total solids and butter fat content. In this state, the law requires that milk sold or offered for sale shall contain at least 11.85 per cent of total solids, and 3.35 per cent of butter fat.

CONTROL OF MILK SUPPLY.

The measures instituted by this department to improve the quality of the milk supply have been as follows:

First, it is required that all cows, the milk or cream from which is to be sold in Keene, shall pass a satisfactory tuberculin test at least once a year.

Second, all dairies supplying milk to the City of Keene are inspected twice a year, and rated by the use of the U. S. Department of Agriculture score card.

Third, samples of the various milk supplies are taken, and either tested for the amount of visible dirt, or sent to the state laboratory at Concord to be tested for total solids and butter fat content, and to determine the presence of adulterants.

RESULTS OF DAIRY INSPECTION.

The following are the records of inspections made of the dairies supplying milk to the City of Keene. The records are based on the U. S. Department of Agriculture score card.

With the score card system, a perfect dairy is rated at 100. The 100 points are divided up among 32 items. Those

items of most importance in producing milk of high sanitary quality are given the largest numbers of points.

In scoring a dairy, each item is considered separately, and given a certain proportion of the points assigned, this proportion depending on the individual case. For example, 5 points are assigned to the cooling of milk. If the milk is cooled below 50 F., the entire 5 points are allowed. If cooled to 51-55 4 points, 56-60, 2 points.

The number of points given to all the items are added up, and the total is the score.

The method of inspection was to give each dairy a score, and to point out to each dairyman his particular deficiencies, and make suggestions as to improvements. The scores here published are, in all cases, the records of a second inspection, made after ample time had been allowed to carry out suggestions made at the first inspection.

There have been, during the year, 133 dairies supplying milk to the City of Keene, although all of these were not sending in milk at any one time. Of these 46 were wholesalers only. The other 87 were issued distributers licenses.

SUMMARY OF SCORES.

Highest Score	98.0
Lowest Score	60.0
Average Score	66.6
Scores between 80 and 100	6
Scores between 70 and 80	16
Scores between 60 and 70	66

A score of 80 or more would be considered good. A score of 60-80 would be considered fair. A score of 60 or below would be considered poor. The Board of Health has voted to allow no milk, produced on dairies scoring lower than 60, to be sold in the city.

Most of the dairies score between 60 and 70. While these are passable, there is room for a great deal of improvement.

EXAMINATION OF MILK SAMPLES.

There are two main purposes in the examination of samples from the public milk supply.

The first, and more important, from the health viewpoint, is the determination of the sanitary quality. For this purpose determination of the number of bacteria is the most valuable. The examination of milk samples to determine the presence of the germs of specific disease is not practicable as a routine measure. The determination of the total numbers of all kinds of bacteria present in the milk is of value not only for the information it gives relative to the quality of the milk, but as a check on dairy conditions. The determination of the amount of visible dirt present in milk is valuable in that it sheds some light on dairy conditions. However, this test only shows the dirt which does not dissolve in the milk. Milk may show very small amounts of visible dirt, and yet contain large numbers of bacteria. The second purpose in examining milk samples is to determine whether the milk contains the required amount of solids, and of butter fat. This is more for the protection of the pocketbook of the consumer than of his health.

RESULTS OF EXAMINATIONS OF MILK SAMPLES.

It has not, up to now been possible to make any number of examinations for bacteria, because of lack of the necessary apparatus. In order to obtain determinations of butter fat and solids, it is now necessary to send samples to Concord. It is expected, that, during the coming year the department will be able to purchase enough supplies to make it possible to perform these tests at home.

Determinations of the amount of visible dirt by means of the sediment test are carried out at the department rooms.

The following are the results of examinations of samples of milk during the past year:

Samples sent to Concord	54
Above standard	35
Below standard	19
Clean	21
Slightly dirty	20
Dirty	13

Samples tested by Sediment Test	63

SUMMARY.

The main results accomplished during the year have been, the institution of the tuberculin test requirement, and the establishment a regular inspection and licensing system.

The city milk supply now comes from cows which have passed a satisfactory tuberculin test, and a start has been made towards better all around dairy conditions. It must be realized that improvement along these lines can only come gradually and as a result not only of the enforcement of ordinance by the health department, but of cooperation by the dairymen, and by the general public.

FOOD SUPPLIES.

The control of food supplies, from a health viewpoint, consists of the supervision of the manufacture and handling of foods, to insure conditions of cleanliness.

This is carried out by this department by means of regular monthly inspections of places where food is manufactured

and handled, and enforcement of ordinances of the city, and of the state board of health governing food.

There are, in the city, 50 food stores, 4 bakeries, and 6 restaurants. In all of these, general conditions are good, with the exception of 4 stores which be rated as fair.

The summary of the work of supervision of food supplies is as follows:

Inspections of Food Stores	164
Inspections of Bakeries	12
Inspections of Restaurants	42

BARBER SHOPS.

The sanitation of barber shops is a matter insuring that certain precautions be taken by the barbers in serving customers, and that conditions of general cleanliness be maintained. These things are provided for in the state law governing barber shops.

The procedure followed by this department is to enforce the provisions of this law. This has been done, so far as can be accomplished by inspections. It is one thing to insure that a barber has the necessary equipment, and another to insure that he uses it at all times. It is manifestly impossible to watch the barbers at all times. The carrying out of barbershop regulations is thus largely dependent upon the conscientiousness of the barbers, and the cooperation of the public.

There are 10 barber shops in the City of Keene. Conditions in all are satisfactory, as regards cleanliness, and with few exceptions, all the barbers have shown a willingness to carry out the provisions of the law.

All barber shops are inspected once a month. The total number of barber shop inspections during the past year was 50.

GENERAL SANITATION: NUISANCES.

A nuisance, according to a famous legal authority, "signifies anything that worketh hurt, inconvenience, or damage."

Under this definition, the term nuisance may include a large variety of public and private wrongs, which may or may not be related to health.

Those nuisances with which the health department is concerned may be divided into two classes; those which directly affect health, and those which are only indirectly related to health.

The first class would include nuisances caused by the improper disposal of human excreta. The history of typhoid fever and other intestinal diseases shows abundant instances where the spread of these diseases has been directly traceable to lack of care in the disposal of discharges from infected persons.

The second class includes nuisances caused by lack of proper disposal of garbage, manure, and other waste putrescible material. The relation of such nuisances to health lies in the fact that putrefying matter makes possible the breeding of flies, and that flies are agents in the spread of infectious material. In this class would also be included conditions favoring the breeding of mosquitoes.

Nuisances, of the second class, always indirectly related to health, may be of great or of little importance, according to local conditions.

For instance, condition favoring the breeding of flies would be a greater health menace in a community where careless disposal of excreta is the rule, than in one provided with sewers or sanitary privies. The mosquito becomes a health menace only where malaria exists.

A nuisance may also be caused by conditions which have

no relation to health but which is a nuisance by reason of the discomfort and annoyance caused. The health department is vested by law with power to deal with some of these, mostly because of the once prevalent belief in their relations to health.

The solution of the problem of disposal of excreta, is to put all house sewage into public sewers. In unsewered districts, all privies should be of sanitary construction.

In this city, there are only a few areas in the thickly settled districts which are not sewered. In the sewered districts, there are only a few premises without sewer connections. A number of these, have, during the past year, been required to be connected, and the same will be required of the others as soon as practicable.

In the unsewered districts, most of the privies are of fairly sanitary construction. During the past year, a number of privies in the unsewered districts were found in grossly unsanitary condition. The owners or occupants of the premises were required to remedy the worst features. The problem of the removal and disposal of garbage and other putrescible material is one which must be efficiently met, if the fly nuisance is to be controlled. Up to the present, this department has dealt with the matter under the authority of the law of nuisance.

RECOMMENDATIONS.

CONTROL OF MILK SUPPLY.

The milk supply control work, as now carried on by this department, consists of an inspection of all dairies twice a year, and monthly examination of as many milk samples as possible.

The milk samples, as now collected, represent only a few of the sources of the city milk supply.

More frequent inspections of dairies, and more frequent collections of larger numbers of samples are necessary, if the desired results are to be obtained, but are impossible at present because of limited funds available for transportation. This department should be provided, either with an automobile, or with an increased allowance for transportation.

GARBAGE COLLECTION.

The largest number of complaints of nuisance received by this department relate to the improper disposal of garbage. Conditions noticed in the course of inspection lead to the conclusion that lack of a regular system of garbage collection and disposal is a condition which should be remedied before another warm season sets in.

The city should undertake the regular and systematic collection of garbage.

SANITARY CODE.

The ordinances, under the authority of which this department derives it authority for the control of milk supplies, and for its work in general sanitation, are, in many instances out of date, and not complete enough to accomplish the desired re-

sults. These should be added too, and brought up to date. The city should also pass a set of communicable disease ordinances as a supplement to the state laws governing these diseases.

Respectfully submitted,

ARTHUR E. BURKE, C. P. H.
Health Officer.

REPORT OF TRUSTEES OF KEENE PUBLIC LIBRARY.

To the Honorable Mayor and City Councils:

Gentlemen:

The Trustees of the Keene Public Library submit the following report.

A successful year in the history of the Keene Public Library closes with this date. Through the Publicity Committee co-operating with the librarian the attention of the public has been drawn to the library and its privileges, and an increase in patronage and interest has been the satisfactory result. It is the earnest hope of the trustees that the community will appreciate the advantages it has in possessing such a fine library, its excellent staff and its delightful situation. The children's room which would add greatly to its power and influence in educating the taste of the young for good reading is one of the developments the trustees are looking forward to in the near future.

An increased interest in the "Vacation Reading Club" has been very encouraging. Miss Saxton, as usual, has put much thought and effort into the selection of books and the children showed by their large attendance at the special meeting arranged for their entertainment at the close of the summer how keen their interest had been in it. At this time Miss Louise

Karr held the children in wrapt attention during the hour of story telling. Members of the board were present, including Mrs. Chas. H. Hersey, who presented the particularly attractive certificate to the children. There was music on the grafanola and games lead by the assistants. Miss Riggs has conducted interesting nature study classes, both she and Mrs. Bishop have been most helpful to the young people. Other branches of the library work have been most satisfactorily carried on. Miss Sherman ,through her long experience, has ably assisted Miss Saxton.

School libraries were arranged and placed in many schools. The trustees hope to extend this work this year.

The children's book week was a splendid success locally. Adults taking unusual interest in it, beside the interesting collection of children's books arranged in the hall, two afternoons were devoted to the children's pleasure, when they were delightfully entertained with stories and readings by Mrs. Harold A. Peart and Mrs. Edward J. Kingsbury. The attendance was very large and many trustees were present.

The trustees sent Miss Saxton to the American Library Association meetings held at Swampscott, Mass., in June, and she brought back much inspiration, help and interest to her assistants, as well as the trustees.

The New Hampshire Library Association held its annual meeting here in October by invitation of the trustees; it had the largest attendance in its history. A series of meetings were held, which were of special interest to librarians, trustees, library workers and patrons. Among the speakers were J. Randolph Coolidge, Jr., trustee of the Boston Athenaeum, and Miss Alice Jordan, children's librarian of the Boston Public Library.

The trustees were gratified to see many citizens avail themselves of such an opportunity to become better acquainted with modern library methods and benefits. The entertainment ex-

tended by the trustees was a drive to Peterborough, where the Mac Dowell colony, the historic library and other places of interest were visited.

All the expenses incurred from the above mentioned methods of maintaining and extending the library privileges have been defrayed from the income of the Thayer fund.

Several gifts have been offered to the library during the year, but as space is limited and they seemed more appropriate for historical rooms, they were declined. One gift was accepted, the Yale diploma of Aaron Hall in 1772. The Library building stands on the site of the Hall homestead and it seemed most appropriate to preserve it in the library building, where it now hangs.

The library building has been painted and other needed repairs made.

In the librarian's report hereto appended, further statistics of interest may be found.

MARY A. A. PRENTISS,

Secretary.

Dec. 6, 1921.

REPORT OF LIBRARIAN.

To the Board of Trustees of the Keene Public Library:

Following is the report of the year 1920-1921.

The work of the year has, as usual, been varied but the emphasis has been placed on gaining new borrowers and making the literary, historical and scientific sections of the library of greater use. With this view in mind, slides were shown at the motion picture theatre, indicating the possibilities for gaining information on a wide variety of subjects. During the winter, lists of books of technical and general interest were sent to several factories in the city. The Bulletins have been more widely distributed than formerly and the Summer Vacation Reading for the young people and Children's Book Week given especial publicity.

Probably as a result of these methods, we record 672 new registrants, a small gain over last year, and a very satisfactory increase in circulation, 6,688. We are, however, aware that the library is reaching only a comparatively small part of the population. How the problem of further extending the privileges of the library can be met, it is hoped may be answered in a future report.

The Reading and Reference rooms have continued to be used largely, both by adult readers and pupils studying many subjects. In connection with much of this work, pictures have been in demand and the number loaned is more than double that of last year.

The vacation reading was made more attractive this summer by printed lists for the individual borrowers and by the Nature Club outings which took groups of children afield, from early spring, identifying birds and flowers, until late summer. Credit for carrying out these excursions and showing the young people how to use the books on those topics, is due to Miss Riggs. At the close of this vacation work, those who had been reading gathered in Library Hall to receive their certificates, presented by Mrs. Hersey for the Trustees. They were further rewarded by the story-telling of Miss Louise Karr, who gave them a delightful version of "As You Like It," also tales of ancient Greece.

For Children's book week, the building was decora with interesting posters, portraits of favorite authors, illustrations by some of the best illustrators of children's books, and ornamental mottoes. Lists of books and plans for a simple bookcase which boys can make for their own rooms were given out. One of these cases was made by Mr. Dudley and the manual training department of the Junior High school and given to the library. A display of good books both old and new and two story-hours brought many visitors during the week. Over 100 children attended the first story-hour on Wednesday night after school and 87 on Saturday morning. Mrs. Harold Peart and Mrs. Edward Kingsbury very kindly and charmingly acted as story-tellers and were fully appreciated.

It is hoped that a story-hour may be kept up with some regularity through the winter as a further means of bringing some of the best in literature to the boys and girls.

The coming of the New Hampshire Library Association to us in October for the annual meeting marks another special feature of the year. It offered an opportunity long desired for the Board of Trustees and all the members of the staff to gain the inspiration and benefit of meeting an enthusiastic company of library workers and to profit by the suggestive talks on various phases of our work. Many appreciative words and letters have been received for the cordiality of the Trustees, the pleasant arrangements made for those attending and the real treat in the visit to Peterboro. The talk on children's books by Miss Alice Jordan, children's librarian, Boston Public Library, and the suggestions made by Mr. J. Randolph Coolidge, Jr., in a paper on The Trustee's Trust were of particular value. Miss Jordan's recommendations for books have already been in large part added to our juvenile library and Mr. Coolidge's summing up of conditions here, from a comparative study which he made,—that while Keene is doing more than some other cities in N. H., yet it is not doing much toward providing adequate library privileges,—may well be kept in mind in our future planning.

The stack room is getting crowded and it will soon be necessary to discard out of date and unused books. Our greatest need, however, is added facilities for work with the children. The cities of the state with which ours may be compared in size, also many smaller places, provide special room for the young people. In many instances where the circulation is proportionately larger than ours, we have to recognize the fact

that children up to ten years of age are only served here through the books sent to schools and a few collections of stories for youngest readers which may be borrowed by the mothers . This is a condition which, I know, we all equally regret and which it is hoped you are planning to remedy as soon as practicable. In the meantime, I suggest that, if possible, a sum be provided for the purchase of more so-called school libraries, that we may place a set of 25-30 books suitably graded in each school building. These could be exchanged possibly every six weeks and provide a valuable addition to the school work and in part make up for lack of provision at the library.

The librarian is grateful to the Trustees for making it possible for her to attend the A. L. A. meeting at Swampscott in June. It was the largest meeting of the Association yet held and was a great help and inspiration. It is also a pleasure to acknowledge the cooperation and suggestions of the Board and to commend the faithfulness and willing service of the staff members. We are also indebted to the Keene Evening Sentinel for generous space in the columns, and to a few residents of the city for gifts of books.

Respectfully submitted,

MARY LUCINA SAXTON.

REPORT OF SUPERINTENDENT OF CEMETERIES.

To His Honor the Mayor and Gentlemen of the City Councils:

The undersigned respectfully presents the report of the Cemetery Department for the year ending Nov. 30, 1921.

In the year just passed, several improvements, some of them long needed, have been made. I will make mention of the painting of the fences on Beaver and Page streets, the building of an addition to the tool house in Woodland, that makes it possible to keep the team used for the work of the department where it is much more convenient, the painting and part shingling of the building, the placing of a new driveway gate on North Lincoln street, the removal of a number of trees that were unsafe or objectionable on account of decay or otherwise, the planting of more desirable trees in place of those removed, as in Greenlawn where Norway Maples were set to replace the Balm of Gileads, much more work of this kind is needed.

It became necessary to replace the drain from the pond in Wooland to the brook, this was done by laying of tile pipe.

A considerable amount of work has been done on the laying out of new avenues and the improvement of old ones.

Upward of seventy lots have been graded or resurfaced for their owners, or to prepare them for sale, and an unusually large number of depressions have been filled.

Twenty-nine burial lots have been sold, eighteen eight-grave, five four-grave, three three-grave, one two-grave, and two single graves.

One hundred and thirty interments have been made, ten in the public ground, three in single graves, and the remainder in family lots, seven reinterments have also been made.

In repairing the wire fences it came to light that the bottom of very many of the posts are completely decayed, being held upright by the wire only, this points to its replacement or extensive repairs in the near future.

I wish again to call your attention to the need of a more adequate receiving tomb.

It may be noted that the number of interments, and lots sold, is considerably less than last year, making the receipts for the year correspondingly less.

They are as follows:

Dec. 1920. Sexton work, $54.00; labor, $41.50; loam, $5.50; fertilizer, $5.50; grass seed, $1.00; care of lots, $463.50; collected on lots sold, $130.00,	$701 00
Jan. 1921. Sexton work, $101.00; labor, $9.00; care of lots, $92.50; collected on lots sold, $125.00,	327 50
Feb. 1921. Sexton work, $100.00; labor, $12.00; loam, $15.00; fertilizer, $2.00; grass seed, $1.00; care of lots, $49.50,	179 50
March 1921. Sexton work, $85.00; care of lots, $30.00; collected on lots sold, $155.00; wood, $5.00,	275 00

April 1921. Sexton work, $47.00; fertilizer, $1.00; care of lots, $26.00; collected on lots sold, $180, 254 00

May 1921. Sexton work, $132.00; labor, $11.00; loam, $10.00; rotten stone, $1.50; fertilizer, $2.00; grass seed, .75; care of lots, $57.00; collected on lots sold, $16.00, 230 25

June 1921. Sexton work, $101.00; labor, $34.00; loam, $5.00; fertilizer, $3.00; grass seed, $1.50; care of lots, $21.00; collected on lots sold, $125.00, 290 50

July 1921. Sexton work, $101.00; labor, $28.50; loam, $19.50; fertilizer, $2.00; grass seed, $1.00; care of lot, $3.00; collected on lots sold, $115.00; pine log, $3.92, 273 92

Aug. 1921. Sexton work, $72.00; labor, $5.00; loam, $1.50; fertilizer, $1.00; grass seed, .25; care of lots, $6.00; collected on lots sold, $88.00, 173.75

Sept. 1921. Sexton work, $117.00; labor, $62.00; loam, $16.00; fertilizer, $10.50; grass seed, $4.50; care of lots, $9.00; collected on lots sold, $200.00, 419 00

Oct. 1921. Sexton work, $179.00; labor, $119.50; loam, $79.00; fertilizer and lime, $24.00; grass seed, $10.00; care of lots, $12.00; collected on lots sold, $105.00, 528 50

Nov. 1921. Sexton work, $82.00; labor, $65.00; loam, $68.50; filling, $8.00; fertilizer, $16.50; grass seed, $6.50; care of lots, $15.00; collected on lots sold, $105.00,	366 50
Total for the year,	$4,019 42

I have deposited these several amounts with the city treasurer, and hold vouchers for said amounts.

LAURA E. MASON,

Superintendent.

Keene, N. H., November 30, 1921.

REPORT OF CITY PLAYGROUNDS DIRECTOR.

To His Honor the Mayor and Board of Aldermen:

The City Playground at Wheelock Park was in session from July 12th to August 19th, inclusive.

During the extreme hot weather of July two hundred children attended daily and in the six weeks' session, nearly 3,350 children were cared for at the Park.

The limited amount of apparatus at the Park was augmented this year by the addition of ten swings. It is to be hoped that other necessary apparatus may be obtained before another playground season.

This year, with the help of an assistant director, the baseball field was more closely supervised than hitherto. Various teams in the vicinity were challenged and the contests developed an admirable spirit of good sportsmanship among the children.

Respectfully submitted,

GERTRUDE K. McCUSHING.

Aug. 19, 1921.

REPORT OF CITY SOLICITOR.

To His Honor the Mayor and Gentlemen of the City Councils:

As Solicitor for the City I beg leave to submit the following report:

All the criminal matters under police offenses brought in the Municipal Court and all the prosecutions for infringement of Municipal ordinances have received attention and the cases appealed to the Superior Court from the Municipal Court have been attended to and proper disposition made of them.

The various departments of the City Government have been advised from time to time and written opinions have been given to the City Councils as requested.

Your Solicitor has appeared in behalf of the City before the State Public Service Commission in Concord in reference to tax matters in relation to the matter of abating taxes assessed against the Keene Electric Railway Company and urged that the Public Service Commission require the Electric Railway Company to improve its road bed and equipment for the better convenience and safety of our citizens.

In the Superior Court the appeal of William C. Coughlin v. the City of Keene from the award of $4500 by the Commissioners for the discontinuance of a part of Appleton street, including a bridge as a highway, was tried before a jury and the award was reduced to $3500.

The matter of the petitions of the City of Keene asking for abatement of taxes on land owned by the City and used for water conservation in the towns of Roxbury and Nelson, came up for hearing at the October term of Court and the matter is now pending in that Court for a decision on the interpretation of the statute applying to the taxation of such property.

A hearing has been held before a referee appointed by the Superior Court on a petition of Ellis against the City of Keene for abatement of taxes assessed against the Cheshire House property and the report of the referee will undoubtedly be handed in before the end of the year.

Prosecution has been successfully carried out in the Municipal Court enforcing the health laws at the request of the health officer of the City.

Respectfully submitted,

WILLIAM H. WATSON,

City Solicitor.

REPORT OF CHIEF ENGINEER OF FIRE DEPARTMENT AND CITY ELECTRICIAN.

To His Honor the Mayor and Gentlemen of the City Councils:

As required by the City ordinance governing the fire department, I herewith submit my report for the year ending Nov. 30, 1921.

The department has responded to the following alarms, 12 bell alarms, 155 still alarms and 5 out of town calls making a total of 172 alarms. This being the largest number of fire calls the department has ever answered in any one year in the history of the city.

The estimated value of buildings damaged by fire was	$155,400 00
Damage to buildings,	7,989 60
Insurance on said buildings,	98,050 00
Insurance paid,	7,989 60
Value of contents of said buildings,	33,300 00
Damage to said contents,	4,422 56
Insurance upon property,	22,100 00
Insurance paid,	4,422 56

Apparatus and force: The apparatus and force of the department under a Chief and three assistant chiefs, located on Vernon street, is as follows: The Keene Steam Fire Engine and Hose company, H. E. Raymond Captain, 25 men has Amoskeag Steamer, No. 1, Button steamer No. 2, one Combination Chemical and Hose Wagon, one Relief Hose Wagon, and one Motor Chemical with two 40 gallon chemical tanks and other necessary equipment. Washington Hook and Ladder Company, M. J. Carey, Captain, 20 men, has one Motor Combination Chemical and Ladder Truck and two Relief Trucks. Deluge Hose Company, E. H. Applin, Captain, 20 men, has one Combination Chemical and Hose Wagon. We have on hand about 7,500 feet of No. 1 hose, 1,500 feet of linen hose, at South Keene, 500 feet of No. 2 hose, which is unfit for fire service. During the year 500 feet of No. 2 hose was sold to the Water Works Department. As usual the buildings in the fire precinct have been inspected by the Chief and his assistants.

Recommendations: The Board of Engineers recommend the purchase of 1,000 feet of hose; Pumping Engine; Extra Driver for Motor Ladder Truck, also that the old flush hydrants be replaced by post hydrants. The fire alarm telegraph system in care of Assistant Chief E. B. Riley, the fire alarm electrician continues to give excellent satisfaction.

The cell plates in the batteries of which there are 152 on the fire alarm circuit, have about reached their limit of usefulness and these will have to be replaced this year. During the year 2 new fire alarm boxes of the latest type have been

installed, also 5 miles of new copper wire for the fire alarm system, which was purchased this past year, has been installed.

To the Mayor, and members of the joint standing committee on fire department, the members associated with me on the board of engineers, officers and members of the department and to the public, I extend my sincere thanks and appreciation for the liberal aid and generous support rendered me during the past year.

F. W. TOWNE,

Chief Engineer.

JOHN H. SIMPSON,

Inspector of Plumbing.

Dec. 6, 1921.

REPORT OF SEALERS OF WEIGHTS AND MEASURES.

To the Honorable Board of Mayor and Aldermen of the City of Keene:

We herewith submit a report of our work during the past municipal year as sealers of Weights and Measures. We have visited every place in the City that is known to us, where goods are sold by weight or measure. People as a whole are willing to have their scales and measures tested, and corrected if found incorrect and to cooperate with the weight and measure laws of the state. There are a number of small stores opening up every year that increases the work of the office to quite an extent, to cover it all requires about one thousand calls to be made for which the pay is very inadequate. The following table gives you best a slight idea of the amount of work done:

Respectfully submitted,

EDWIN D. HAYWARD,
Sealer Jan. 7 to Oct. 1, 1921.

JEDEDIAH C. ESTABROOK
Sealer Oct. 1 to Jan. 1, 1921.
